

## Warning:

Tribbles are intended for human use only. Do not give your Tribble to your Targ or Sehlat (pet).

Do not throw your Tribble. It can damage your Tribble and/or your friends.

Do not sit on your Tribble. When Captain Kirk did it, it was an accident.

Keep your Tribble dry. Do not put it in the washing machine or dryer. Do not attempt to soak it in any type of solution. Your Tribble contains electronic components that cannot get wet. Spot clean only.

### Compliance Notices:

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Industry Canada's licence – exempt RSSs. Operation is subject to the following two conditions:

[1] This device may not cause interference and

[2] This device must accept any interference, including interference that may cause undesired operation

## STAR TREK APP-ENABLED INTERACTIVE TRIBBLE

SD-ST-01

Ages 6+

# USER MANUAL

## THE TRIBBLE ADOPTION CENTER

Space travel can cause bad hair days. Give your Tribble a good fluff upon arrival to get it looking its best.

**BATTERIES:** Your Tribble requires three (3) AA 1.5v batteries. To add or change the batteries, use a screwdriver to open the battery compartment on the electronics box. Insert the batteries, replace the cover, and put the box back into your Tribble. When the batteries get critically low, your Tribble will squeak rapidly 3x to alert you.

### **WARNING:**

Do not mix old and new batteries.

Do not mix alkaline, standard (carbon-zinc) or rechargeable (nickel-cadmium) batteries.

**POWER ON/OFF:** To turn your Tribble on, slide the switch on the electronics box to the ON position. A blue LED will illuminate. To give you time to re-seal the pocket, your Tribble will not respond to movement for the next 5 seconds. To turn your Tribble off, slide the switch to the OFF position.

### **MODES**

To change modes without the Section K-7 app, press the mode button on the electronics box. Your Tribble will squeak to indicate which mode it is in now. The blue LED will flash a mode pattern for 60 seconds and your Tribble will give you 5 seconds to re-seal the pocket before responding to movement.

#### **At Ease - 1 Squeak, Solid Blue LED (No Flashing)**

Your Tribble defaults to At Ease mode. It is not searching for Klingons. It will trill and vibrate when you move it. It will also trill on its own without being picked up because, well, it's a Tribble. When left alone, your Tribble will trill less frequently to avoid irritating its human companion. If an hour passes without movement, your Tribble will enter Sleep Mode. Wake it by picking it up, or by changing its mode with the mode button.

#### **On Duty - 2 Squeaks, Blue LED Flash Flash, Pause, Flash Flash**

Your Tribble is seeking Klingon agents. Each time it moves, it will determine if the person who moved it is an ally or a hidden Klingon. It will trill and vibrate softly when it meets a friend, but it will scream and vibrate more violently if it detects a Klingon!

#### **Watchdog - 3 Squeaks, Blue LED Flash Flash Flash, Pause, Flash Flash Flash**

Set your Tribble on top of an object that you wish to protect—your tricorder, for example—and if anyone moves your Tribble to access that object, it will scream and vibrate violently to alert you!

## **COMMUNICATION VIA THE SECTION K-7 APP**

Download the free Section K-7 app from the Google Play or App Store.

**PAIRING:** Your Tribble utilizes **Bluetooth®** technology to interface with your Personal Access Display Device (your smart device). Make sure that Bluetooth is enabled on your device.

Press and hold the mode button on the electronics box to initiate pairing. The blue LED will flash rapidly to indicate that your Tribble is in pairing mode.

Tap the PAIR TRIBBLE+ button on the Crew page of the Section K-7 app. The app will locate your Tribble and add it to the Crew page.

**NAMING:** Tap a Tribble on the Crew page to rename it. A keyboard will pop up to allow you to name the new Tribble. Tap DONE when you are finished. Your Tribble will squeak to indicate that it has accepted its new name.

**VOLUME:** You can change the volume for your Tribble's trilling on the Crew page. Slide the speaker icon along the slider bar to set a new volume level.

**SHIP ASSIGNMENT:** Tap the CHOOSE SHIP button on the Crew page to select a ship or space station for your Tribble's assignment. That ship or station will appear as the icon for At Ease mode on the Assignments page.

**DELETE A TRIBBLE:** If you need to delete a Tribble from your roster, tap the red and white X icon next to that Tribble on the Crew page. A confirmation screen will pop up. Tap DELETE to delete the Tribble, or KEEP if you have changed your mind, or accessed this screen by accident.

**COMMUNICATING:** On the ASSIGNMENTS page, you can change your Tribble's mode with the three buttons at the top of the page. Select which Tribble(s) you wish to control from the Mission Roster. A circle to the right of each Tribble will indicate its current mode. A gray circle indicates that the Tribble is unpaired. Tap that Tribble to pair it.

**ATTACK:** Tap the ATTACK button to cause your Tribble to scream at whomever is holding it in any mode.
